1.Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, drawn to a method of making an optical member.

Group II, claim(s) 10-15, drawn to a method of making a plastic lens.

Group III, claim(s) 16-20, drawn to a gasket for molding plastic lenses.

Group IV, claim(s) 21, drawn to a casting mold.

Group V, claim(s) 22 and 23, drawn to a monomer casting jig.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: While Groups I and II relate to molding methods, Group I concerns the molding of an optical member while a certain polymerizable component is heated and filtered while Group II is directed to making a plastic lens while the mold is tilted. Group III is drawn to a gasket, Group IV to a casting mold and Group V to a casting jig. Clearly, these different groups do not share a technical feature in the sense of the second sentence of PCT Rule 13.2.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does

not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
